

# CHOCOLATE SALES ANALYSIS PROJECT REPORT USING TABLEAU

## **1. PROJECT OVERVIEW:**

This project analyses chocolate sales data across multiple countries, products, and salespersons. The dashboard consolidates shipment volumes, revenue, product performance, and salesperson contributions into a single view. It enables stakeholders to identify profitable regions, top-selling products, and high-performing salespersons while highlighting areas for improvement.

---

## **2. OBJECTIVES:**

- ❖ To evaluate overall chocolate sales performance across regions.
  - ❖ To identify top-performing products and categories.
  - ❖ To assess salesperson contributions and highlight best performers.
  - ❖ To uncover trends in shipment volumes and revenue distribution.
  - ❖ To provide actionable insights for market expansion and product strategy.
- 

## **3. DATA CLEANING (PREPROCESSING):**

The following preprocessing steps were performed to ensure data quality:

- Handled missing values
- Removed duplicate records
- Corrected and changed data types
- Renamed columns for better readability
- Delimit the columns
- Sort and filter the column
- Ensured uniqueness across key identifiers for reliable aggregation.

## **TOOLS USED:**

- **Tableau:** visualization and dash board creation.
  - **Excel** → Data cleaning and preprocessing.
-

## 6. KEY INSIGHTS (SMART + ANALYTICS APPROACH):

---

The following KPIs were identified through the analysis.

### **6.1 DESCRIPTIVE ANALYSIS:**

- ❖ Total shipments reached 1,77,007 boxes.
- ❖ Sales revenue amounted to ₹61,83,625.
- ❖ Australia contributed the highest sales among all countries.
- ❖ Dark chocolate variants dominated product shipments.
- ❖ Ches Bonnell emerged as the leading salesperson.
- ❖ Other countries like UK and India showed moderate sales performance.

### **6.2 DIAGNOSTIC ANALYSIS**

- ❖ Strong demand for premium dark chocolates drove higher sales.
- ❖ Australia's market dominance reflects effective distribution and consumer preference.
- ❖ Moderate performance in India and UK may be due to limited promotions or competition.
- ❖ Lower sales in USA, Canada, and New Zealand suggest weaker brand penetration.
- ❖ Salesperson performance varied due to differences in territory size and customer base.
- ❖ Specialty products had niche appeal but lacked widespread adoption.

### **6.3 PREDICTIVE ANALYSIS**

- ❖ Dark chocolate demand will continue to rise due to health-conscious trends.
- ❖ Australia will remain the strongest market, but India and UK have potential for growth.
- ❖ Specialty products like *Manuka Honey Choco* may gain traction in premium segments.
- ❖ Salespersons with consistent performance will sustain growth, while weaker performers may lag.
- ❖ Seasonal demand peaks (festivals, holidays) will boost sales in India and UK.
- ❖ Revenue growth is expected if marketing strategies target underperforming regions.

#### **6.4. PRESCRIPTIVE ANALYSIS**

- ❖ Expand premium dark chocolate lines to meet rising demand.
  - ❖ Strengthen marketing campaigns in India and UK to capture growth opportunities.
  - ❖ Introduce promotional offers in USA, Canada, and New Zealand to stimulate demand.
  - ❖ Recognize and incentivize top-performing salespersons to maintain motivation.
  - ❖ Provide training and support for lower-performing salespersons.
  - ❖ Diversify product portfolio with innovative Flavors to attract new customer segments.
- 

#### **7. CONCLUSION:**

The Chocolate Sales Analysis reveals strong overall performance with ₹61.8M revenue and 1.77 lakh boxes shipped, driven primarily by Australia's market dominance and premium dark chocolate demand. Salesperson contributions highlight clear leaders like Ches Bonnell, while underperforming regions (USA, Canada, New Zealand) present untapped opportunities.
